

Online Learning Technology Requirements

Basic Computer Recommendations

The following list represents the best configurations for our learning management system and synchronous software.

- i5 or i7 processor
- 8 GB of RAM
- Windows 10 or Mac OS x 10.13 or higher

Software Specifics

- Antivirus software
- Office Suite software (free to Evangel University students)
- Chrome Browser preferred for Canvas Learning Management System

Connectivity Requirements

- 4Mbit internet service is suggested for Microsoft Teams Video Meetings, but 10Mbit is preferable

Connection Quality

The quality of your connection can be impacted by a number of issues outside Evangel University's control.

- Your Internet Service Provider may impose limits on connection speeds that are unsuitable for videoconferencing
- Cable or Fiber delivery may impact connection
- The age and capabilities of your modem might not be able to process higher speeds
- A wired (not WiFi) connection to your router/modem is highly recommended
