Graduate Studies Catalog 2010-2011

General and Accreditation Information

Evangel University is a coeducational university—a Christian, learning-centered community of faith that confers Baccalaureate and Master’s degrees. The Evangel Ethos is Christ-centered, integrational, global, and exploratory. Evangel is accredited by the North Central Association of Colleges and Schools, the National Council for the Accreditation of Teacher Education, the National Association of Schools of Music, and the Council on Social Work Education. The Missouri State Department of Education recognizes Evangel graduates who have completed the teacher education and school counseling programs by issuing state certificates. Evangel also has an endorsement from its parent denomination through the Alliance for Assemblies of God Higher Education. The Evangel campus is located in Springfield, Missouri, a medium-sized city with ample employment opportunities, affordable cost of living, and strong community values. Located in the heart of Ozark Mountain country, Springfield is surrounded by scenic lakes and hills, shopping, restaurants and hotels. Local attractions include Bass Pro Shops Outdoor World, Wonders of Wildlife Museum, Silver Dollar City and Branson entertainment. St. Louis and Kansas City are major cities within a three-hour drive.

Mission

The mission of Evangel University is to provide opportunities for Assemblies of God individuals to develop academically and intellectually in an accredited Christian liberal arts institution, and to inspire students and graduates to develop spiritually, emotionally, and culturally in order to serve God and mankind in their chosen professions. The Evangel University Graduate Studies programs integrate passionate faith and scholarly exploration to equip and empower diverse and committed learners, whatever their professional calling, to be servant leaders, social and intellectual catalysts, and mature followers of Christ. The Graduate Studies program offers extended studies and professional development in education, organizational leadership, psychology, and school counseling, as well as integration of faith and learning within a scholarly atmosphere. The Evangel University Graduate Studies programs provide the opportunity for a degree-seeking student to earn a Master’s degree. An adult student who is not planning to pursue a graduate degree may select from a variety of professional development opportunities.

Philosophy

The central belief that Christ is Lord is the defining foundation of Graduate Studies at Evangel University. This belief informs and guides the learner in the pursuit of knowledge, faith and responsibility.

Organization

The Graduate Studies Council formulates policies for the graduate programs of Evangel University. The Council is composed of the Director of Graduate Studies, Chairs and Departmental Graduate Coordinators approved by the council and that are also faculty representatives of departments offering graduate programs, and two faculty members elected by the Graduate Council. The Vice President for Academic Affairs is an ex officio member of the Council.
Faculty

Evangel University’s graduate faculty set standards for graduate work and provide graduate instruction. Graduate faculty generally hold an earned doctorate or its equivalent and are approved by the Director of Graduate Studies, the Vice President for Academic Affairs, and the Graduate Program Coordinator. Only members of the graduate faculty may teach courses numbered 500-600 and/or may serve on the Graduate Studies Council. Adjunct graduate faculty may be approved to provide instructional services for graduate students because of their unique competencies and/or professional roles or achievements.

Advisors

When a student is accepted into a graduate program, the Program Coordinator will appoint a graduate faculty member as the student’s Academic Advisor. The faculty member, the student, and the Director of Graduate Studies will be notified of the appointment. In all graduate matters, the assigned advisor will be the student's first point of contact.

Nondiscrimination Policy

Evangel University does not discriminate on the basis of sex, race, color, national origin, age or handicap in its educational programs, admissions, activities, or employment practices.

Accomodation Statement

This university abides by Section 504 of the Rehabilitation Act of 1973, which stipulates that no student shall be denied the benefits of an education “solely by reason of a handicap.” Disabilities covered by law include, but are not limited to, learning disabilities and hearing, sight or mobility impairments. If you have a disability that may have some impact on your work and for which you may require accommodations, please see the staff at the Academic Support Center, Zimmerman Hall, Suite 218, so that such accommodations may be arranged.

Degrees

Evangel University grants nine master's graduate degrees:

- Arts in Teaching
- Education in Educational Leadership
- Education in Reading
- Education in Secondary Teaching
- Organizational Leadership
- Science in Psychology
- Science in Clinical Psychology
- Science in Counseling Psychology
- Science in School Counseling

General admission and degree requirements for Graduate Studies are determined by the Graduate Studies Council, the Board of Administration, and the Board of Directors. Careful consideration is given to all applicants. The primary factors reviewed are undergraduate records, recommendations from academic and professional references, adherence to Evangel’s values, and the scores on entrance exams.
Admission Requirements

Applicants who have met the following criteria will be considered for admission to the Graduate Studies program:

- Hold an earned baccalaureate degree from an accredited college or university or be accepted into an Evangel University 5-year BS/MS degree program
- Have a grade point average of 3.0 or better in the last 60 hours of undergraduate work or last two years as a full-time undergraduate or graduate student
- Provide official results of required entrance examinations (see specific program requirements listed in this catalog)
- Meet specific departmental requirements as stipulated in the individual program descriptions.

Application Procedures

Applicants to Graduate Studies shall submit the following:

- Graduate Admission Application, including a personal statement of faith and life goals
- A current resumé
- Official transcripts of all undergraduate and graduate credits (School Counseling and Secondary Teaching programs require 2 copies of each official transcript)
- Signed Evangel University Lifestyle Covenant Agreement
- Three letters of recommendation (see specific program requirements for details)
- Official score reports of appropriate entrance exams (see program requirements)
- Nonrefundable application fee of $25
- Psychology Program Only: Recent scholarly paper in APA format

Admission to the Graduate Studies program means only that the student will be permitted to enroll for courses in the various graduate programs. It does not imply that the graduate student will be accepted for candidacy. Students enrolled in Graduate Studies courses are classified as regular, provisional, probationary or special admission standing.

International Students

Evangel University believes that students from various cultures and backgrounds significantly contribute to the educational community. The diversity that comes from their experiences enhances the environment of faith and learning. Prospective graduate international students should contact the Graduate & Professional Studies Admissions Office at 417-865-2811 ext. 7227 for information regarding the issuance of I-20s and other important documents.

TOEFL Score Requirements

To qualify for admission, international students whose first language is not English must earn a TOEFL score of 550 on the paper-based exam, 213 on the computer-based or 79-80 on the Internet-based exam. Information on the TOEFL exam can be found at www.toefl.org.

Classification of Graduate Students

Regular Standing
Students who intend to obtain a degree, or a certificate or credential at the graduate level, and who are admitted without reservation are granted regular standing in Graduate Studies. To qualify for regular standing, all admission requirements must be satisfied. Please refer to the specific program for a list of admission requirements.

**Provisional Standing**

Students who intend to obtain a graduate degree, or a certificate or credential at the graduate level, who have not fully met all the admission requirements of the specific program may be eligible for admission as a provisional standing student. Please refer to the admission requirements of the specific program. Upon successful completion of the first required six to twelve graduate units of the program with a 3.0 GPA or higher, and with no C grades or below, and with the recommendation of program coordinator and faculty, the student will be eligible for regular standing.

**Probationary Standing**

Students whose cumulative GPA drops below 3.0 while they are in the graduate program, or who fail to meet standards established by their program in other facets of the curriculum, or who receive three C grades in their coursework, will be placed on probationary standing. Students with a GPA below 3.0 are not eligible for advancement to candidacy.

**Special Admission**

Students who do not plan to earn a degree, credential or certificate, or who have not yet completed the full admission application process, may be granted special admission (special admit) standing. A special admit student is not officially admitted into the graduate program; the student completes an abbreviated application form for authorization to enroll. A special admit student must officially apply to the Graduate Studies program if he/she wishes to be considered for regular standing in the degree program. All program admission requirements and deadlines must be satisfied for admission consideration to the graduate degree program. The University and its Graduate Program are not obligated legally or morally to accept a special admit student into degree status.

**Note:** A special admit student is not eligible for institutional and/or federal financial aid.

**Auditor**

Students who wish to attend graduate classes for personal enrichment, and not for academic credit, may be granted auditor's status. Auditors attend class with no obligations to participate actively in the work. Students seeking auditor’s status must complete an abbreviated admission form. Audit fees are required for each class in which audit students enroll. These classes are non-unitbearing courses. An audit course cannot be turned into a “unit course” after the first week of class. Special admission students who choose to pursue a degree later may not apply more than 12 credits taken as a non-degree seeking student toward degree requirements. A $15 application fee is due upon application as a special admit student. Special admit student forms are available through the Graduate & Professional Studies Admissions office, Graduate Studies office or online at [www.evangel.edu/GraduateStudies/Forms](http://www.evangel.edu/GraduateStudies/Forms).

**Financial Information**

Inquiries regarding student financial matters should be directed to the Evangel University Office of Student Financial Services. Student Financial Services exists to assist students in planning and procuring funds for educational costs. Prospective students desiring information about ways to finance their university education
should direct their questions to Student Financial Services and pursue all forms of financial assistance.

### Tuition and Fees

#### 2011-2012 Tuition (per credit hour)

<table>
<thead>
<tr>
<th>Program</th>
<th>Cost</th>
</tr>
</thead>
<tbody>
<tr>
<td>Education</td>
<td>$230</td>
</tr>
<tr>
<td>Organizational Leadership</td>
<td>$295</td>

<td>Applied Music Fees</td>
<td>$240 per credit hour</td>
</tr>
</tbody>
</table>

Additional fees may be attached to particular courses.

Semester charges are due and payable on or before financial registration. After the financial aid listed on your award letter has been applied, the remaining semester balance is due in full or over four months according to the monthly payment plan.

There is a $25 deferred payment fee per semester. There is no monthly interest charge; however, a $25 late payment fee is assessed for each late payment. Evangel accepts MasterCard, VISA, Discover Card, American Express, cash and personal checks.

The University reserves the right to change tuition, fees and other charges without advance notice should conditions so warrant.
**Financial Aid**

Financial aid is a supplement to help meet University costs. Application for financial aid must be made each year. Financial assistance can be obtained from a variety of sources, including federal financial aid, outside sources such as private scholarships, veterans’ benefits and vocational rehabilitation. All sources of financial aid may be used to establish payment schedules and meet costs of the program.

Students must meet the eligibility requirements to receive any form of federal financial aid. Eligibility is established by completing the Free Application for Federal Student Aid (FAFSA), which may be obtained at www.fafsa.ed.gov.

Federal financial aid options available to graduate students include the following:

**Loans**

Students must be attending school at least half-time (4 hours per semester for Graduate Studies) to receive a federal subsidized or federal unsubsidized Stafford Loan. After the FAFSA has been processed, the results will be reviewed, and students will be informed about loan eligibility. All loans require the completion of a Master Promissory Note and MUST be repaid.

**Federal Subsidized Stafford Loan**

A subsidized loan is awarded on the basis of financial need. Students are not charged interest before beginning repayment or during authorized periods of deferment. The federal government “subsidizes” the interest during these periods.

**Federal Unsubsidized Stafford Loan.**

An unsubsidized loan is not awarded on the basis of need. Recipients are charged interest from the time the loan is disbursed until it is paid in full. Accumulated interest will be capitalized – that is, the interest will be added to the principal amount of the loan, and additional interest will be based upon the higher amount.

After the FAFSA has been processed, the results will be reviewed, and students will be advised of personal eligibility status and provided documentation to complete the financial aid process. If you have any questions regarding the financial aid process, please contact Student Financial Services at Evangel University.

**Veterans Benefits**

Evangel University is approved for training under the provisions of all applicable regulations of the Veterans Administration and the Missouri State Department of Veterans Affairs.

**Assistantships**

Psychology and School Counseling students may be awarded a variety of assistantships for both the first and second year of study. Typical assistantships require five to seven hours of work per week and result in up to $3,000 (per year) towards tuition. Assistantships only apply to the Fall and Spring semesters. Assistantships are awarded in the spring for the following academic year and must be renewed on a yearly basis.
Scholarships

Organizational Leadership and Education students may be awarded yearly scholarships in varying amounts. Education scholarships are awarded in the spring for the following academic year and may be applied to the fall, spring and/or summer semesters. Scholarships must be renewed annually. Awarding of scholarships is determined based on a combination of the following factors:

- Strong academic record
- Financial need
- Involvement in service, and/or professional organization

In order to receive an assistantship or scholarship, students must be enrolled as full-time degree-seeking.

Satisfactory Academic Progress

Federal regulations require Student Financial Services to carefully monitor academic progress for all students receiving federal financial aid. Students must make satisfactory academic progress, including maintaining a 3.0 grade point average, to continue receiving financial assistance. A student cannot be on academic probation for more than one semester and will receive one year of probation before having financial aid suspended.

Official Transcripts

Current and former students may obtain copies of their official transcripts (if all financial obligations to the University have been met) by an online request or an in-person visit to the Records office. The fee is $3 for each official transcript.

Books

Books and other printed notes required for courses offered may be purchased from the campus bookstore (www.cbamatthews.com/evangel/). Books should be purchased prior to the beginning of the class. The bookstore accepts cash, check or major credit cards. Please consult the refund policy prior to purchasing any textbooks.

Withdrawal

Any student who desires to withdraw from Graduate Studies must complete a written application for official withdrawal from Evangel University. This application is available in the Graduate Studies office. All credits will be computed as of the date the application is made. Failure to attend class does not constitute withdrawal from school.

Evangel assumes certain financial obligations based on student enrollment as fixed at the beginning of the school year. A student who wishes to withdraw may assume certain financial obligations outlined under the Return of Title IV Funds federal refund policy. This could result in significant cost to the student. The Return of Title IV Funds relates to students with federal financial aid. Students without federal funding will refer to the institutional refund policy regarding withdrawal from the University. The Return of Title IV Funds worksheet is available from Student Financial Services.

The return of Title IV funds is calculated by a percentage based on the number of days completed, divided by the number of days in the academic period. Once the 60% point in time has been reached, no federal calculation is required. The withdrawal date will be determined by one of the following criteria:
The earliest date the student began the school’s withdrawal process or date the student otherwise provided “official” notice of withdrawal will be used.
The midpoint date in the period will be used if the student does not notify the school.
The date related to any circumstance beyond a student’s control will be used if the circumstances prohibit the student from notifying the University.
The date of the student’s last attendance at a documented academic activity will be used.

The Return of Title IV Funds will be distributed first to any federal unsubsidized Stafford Loan, then to any federally subsidized Stafford Loan. As stipulated by federal and state governments, withdrawal from the program may jeopardize financial aid for the remainder of the academic year. Questions pertaining to financial aid should be discussed with Student Financial Services.

Withdrawal Tuition Refunds

Tuition refunds will be issued upon a student’s withdrawal from the University or course load reduction when an official withdrawal form or an official drop/add form is filed with the Graduate Studies Office. Refunds will be based on the date of receipt of the official forms by the Graduate Studies Office according to the following tuition refund schedule:

**Fall and Spring Refund Schedule**

- On or before first day of classes: 100%
- First full week of classes: 75%
- Second full week of classes: 50%
- Third full week of classes: 25%
- After third full week of classes: 0%

**Summer Refund Schedule**

- First day of classes: 100%
- Second day of classes: 75%
- Third day of classes: 50%
- Fourth day of classes: 25%
- On or after fifth day of classes: 0%

All fees are nonrefundable.

Drop/Add Tuition Refunds

Students who wish to drop or add classes after the term begins should complete a drop/add form with the Graduate Studies office. Forms are available online and must have approval from the student’s advisor before being processed. Tuition for dropped classes will be refunded as follows:

**Drop/Add Fall and Spring Refund Schedule**

- First full week of classes: 100%
- Second full week of classes: 75%
- Third full week of classes: 50%
- Fourth full week of classes: 25%
- After fourth full week of classes: 0%

**Drop/Add Summer Refund Schedule**

</tbody>
</table>

### Re-Enrollment

A student may apply to re-enroll in the program and, when permission is granted, he/she will be charged tuition at the current rate.

### Academic Policies

Evangel University Graduate Studies is committed to helping students fulfill personal and professional goals. To that end, Program Coordinators and Academic Advisors may substitute core course requirements for those that better serve individual student goals. The final authority in determining fulfillment of graduation requirements for the Master's degree is the Graduate Studies Council.

### Minimum Requirements

Degree requirements vary for specific degrees within academic departments. However, each program must require a minimum of 32 semester hours of graduate credit.

### Standards of Responsibility

Graduate students are expected to read and comply with printed regulations. Members of the faculty and Graduate Studies Office will advise students, but program requirements will not be waived nor exceptions granted because a student is unaware of the requirements or policies and procedures.

Students are expected to observe the highest standards of conduct, and they will sign a Lifestyle Covenant Agreement (see Appendix A) affirming their sympathy with and willingness to comply with University standards. Failure to uphold the lifestyle covenant agreement may result in dismissal. Students must assume the responsibility to engage in intellectual study and to comply with all policies and procedures to attain the graduate degree. Evangel University cannot accept the responsibility for the education of any student who is not in sympathy with the purposes and the regulations of the University.

### Advancement to Candidacy Status

Students admitted to a program of study must apply for candidacy after completion of 15 credit hours of graduate coursework at Evangel University. To be considered for candidacy, students must:

- Be accepted into the graduate program in Education, School Counseling, Psychology, or Organizational Leadership
- Achieve a cumulative grade point average of 3.0 or higher on all 500 and 600 graduate coursework with no more than two grades of C (including + or -)
- Present a clear plan for completing the Master's degree to the Academic Advisor and the Graduate Studies Council for approval
- Be recommended for advancement to candidacy by their academic advisor
- Psychology candidates must complete Advancement to Candidacy Screening survey
In making a final decision regarding student advancement to candidacy, the Graduate Studies Council will consider whether the student:

- Demonstrates academic competency and professional integrity and ability in the program
- Proposes a course of study with sufficient merit
- Demonstrates spiritual maturity and values consistent with Evangel University standards
- Exhibits research skills, a professional attitude, and psychological health that justify continuation of study toward the Master’s degree

The Program Coordinator shall recommend qualified students to the Graduate Studies Council for advancement to candidacy. Students will be informed by letter of the Graduate Council’s action.

**Graduate Transfer Credit**

The Academic Advisor may approve transfer of a maximum of 10 credit hours required in the student’s program from another accredited institution. Evangel University reserves the right to accept or reject any course for transfer. Courses considered for transfer credit must:

- Have been taken for graduate credit
- Be applicable toward the degree being earned at Evangel University
- Not have been used to satisfy requirements for a degree granted by another institution
- Have a grade of B- or higher

**Course Repitition**

A student must repeat any graduate course taken at Evangel for which a grade of D or F is received when the course is part of the student’s approved program. If a student makes less than a B in a course that is in the student’s approved program, that course cannot be dropped from the approved program of study.

**Probation Policy**

Students whose cumulative GPA drops below 3.0 while they are in the graduate program, or who fail to meet standards established by their program in other facets of the curriculum, or who receive three C grades in their coursework, will be placed on probationary standing.

Students with a GPA below 3.0 are not eligible for advancement to candidacy.

Upon completion of the following three conditions, the student will be eligible for a return to regular standing:

- If the student’s GPA drops below 3.0, the student must bring their cumulative Evangel graduate GPA up to the 3.0 level, or above, within one year. No more than two courses for which a C was earned can be included as part of the degree.
- If the student has a deficiency in another aspect of the curriculum (e.g., practicum or internship performance, summative assessment performance, psycho-social proficiencies) the student must address the deficiency identified by the department and receive the recommendation of the program faculty and coordinator to return to regular standing.
- Student will meet with the program coordinator for a progress evaluation conference to determine continuation in the program.

The probationary period is an opportunity for a student to address the issues that brought about the probation. Failure to do so will result in the student’s dismissal from the program. The student’s probationary status will be reviewed at the end of each semester.
Plagiarism

Plagiarism on class assignments may be handled at the discretion of the faculty member. Consultation with the program coordinator is always appropriate. The minimum penalty for such dishonesty should be failure on the particular assignment.

Plagiarism or cheating on major exams or projects must be reported to the program coordinator who will pass on to the Director of Graduate Studies the name of the student involved, the nature of the dishonesty, and the decision of the coordinator and faculty member in the matter. The minimum penalty for such dishonesty will be failure on the particular exam or project. The maximum penalty would be failure of the course.

Plagiarism or cheating on a comprehensive final exam or major project which constitutes a summative assessment must be reported to the Director of Graduate Studies for joint action of the faculty member, program coordinator, and Director. Sanctions may include failure of the course in question or dismissal from the graduate program. Normal appeal opportunities are available to students disciplined for academic dishonesty.

Seniors and Graduate Study

A senior undergraduate student who is enrolled in sufficient coursework to complete the requirements for the bachelor’s degree, may enroll with the approval of the Program Coordinator in courses for graduate credit, provided the student’s total enrollment does not exceed seventeen semester hours or six semester hours in a summer term. A maximum of 12 credits from the graduate courses may be applied to the undergraduate degree. After graduation, and upon acceptance into a graduate program, these same credits may also be applied toward the appropriate graduate program.

The Appeal Process

Students with academic appeals should first seek resolution within the department through their Academic Advisors, Program Coordinators or Department Chair. Matters unresolved within the department may be appealed in writing to the Graduate Studies Council.

Time Limits

All degree requirements must be completed within five years from the date of admission. Time spent on leave of absence is included in the five-year time limit for the completion of the Master’s degree. A student who interrupts the sequence of study may be subject to changes in requirements when returning. Transfer credits must be completed within the five-year statute of limitations.

Incomplete Courses

An I (Incomplete) applies to work of acceptable quality when one or more required assignments are not completed because of illness, accident, death in the family, or other satisfactory reason. The request for an Incomplete should be student-initiated. The Incomplete (I) Grade Request Form is obtained from the Records and Registration Office.

Withdrawal from the Graduate Program

A student considering withdrawal from the Graduate Program must first have a conference with the Program
Coordinator or Academic Advisor. If a student finds it necessary to withdraw from the Graduate Program during a regular academic term, official withdrawal from all classes must be processed. The Application for Official Withdrawal obtained from the Graduate Studies Office must be completed. When the required signatures are secured, the completed form should be returned to the Graduate Studies Office. Students who do not officially withdraw from classes will automatically be given a grade of F (failure) by the professor(s).

Failure to withdraw officially may lead to future problems in transferring units to other graduate institutions or when applying for readmission. Students who follow the proper procedures in withdrawing due to justifiable personal circumstances will be classified as having withdrawn in good standing. The tuition refund policy will be observed in cases of official withdrawal from the Graduate Program.

Leave of Absence from the Graduate Program

Students who find it necessary to interrupt the regular sequence of enrollment are expected to file notice of an official leave of absence to ensure proper communication between the student and the Graduate Studies Office. Forms for this purpose are available in the Graduate Studies Office. Time spent on leave of absence is counted in the five-year time limit for graduate coursework. A student is held responsible for academic regulations and program requirements in effect at the time of entrance, provided the student maintains continuous enrollment. A student who interrupts academic enrollment is subject to the academic regulations in effect at the time enrollment is resumed.

Readmission

Students who have been absent from their Graduate Program for two or more consecutive semesters must submit an Application for Readmission to the Graduate Office. All returning graduate students are subject to new graduation requirements that are in effect at the time of their readmission.

Grade Points

Each course receives one grade, combining the results of class work, research and examinations. Grades are indicated by letters, with the following value in honor points given to each.

All references to letter grades in the Graduate Catalog are inclusive of the +/- grading system.

Research Thesis

Thesis requirements for degree programs are explained within the academic program descriptions. The thesis must demonstrate a capacity for research and independent thought and be the student’s own work. The Graduate Studies thesis guidelines, Evangel University Thesis Guide to Preparation and Submission, are available online. Academic Advisors should be consulted as to certain specific department requirements. The general thesis process is as follows:

- Thesis topic is approved by the Academic Advisor
- Thesis committee is formed. For the traditional thesis, this committee is composed of the major advisor, a departmental graduate faculty, and a graduate faculty in another department. For the non-traditional thesis, this committee is composed of the major advisor and a departmental graduate faculty
- Student and advisor work closely to refine the proposal and study implementation. When the major advisor is satisfied with the thesis progress, the student will be directed to submit the thesis to committee members
- Student supplies committee members with copies of the thesis for review and evaluation
- Committee members work with student and provide suggestions for improvement
- When all committee members are satisfied, the student orally defends the thesis before the committee and revises as recommended
- Final committee approval is secured in writing at least three weeks prior to commencement

The Graduate Studies Council must approve any exceptions.

Education Research Project

Education degree programs allow a research project in lieu of a thesis. A research project is an analysis/synthesis of current research and information pertinent to the student’s area of specialization that results in a product that can be applied in the educational setting. A research project may result in a new curriculum, an assessment tool, a plan (e.g. safety, community/parental involvement, professional development) or an analysis of a situation or product. Project requirements for degree programs are explained within the Education program description.

Non-Thesis Option

Education and Counseling Psychology students have the option to take additional coursework in lieu of completing a thesis or research project. Consult the departmental program descriptions for guidelines regarding this particular option.

Comprehensive Examinations

Required by Psychology and School Counseling programs only. Comprehensive examinations will be administered once each semester, including summer and must be written in entirety during one session. If a student fails any portion of the comprehensive exam during the first attempt, he/she will pay a retake fee equal to the current rate of 1 credit hour tuition corresponding to their program and must rewrite an entirely different and equally comprehensive exam during the second sitting. More than two attempts to pass comprehensive exams must be approved by the Graduate Council.
Comprehensive Exam dates will generally be offered the 4th Friday of March, 1st Friday of August and the 2nd Friday of November. Please check with your respective department for exact exam dates and times.

Graduation Requirements

Requirements for graduation with the Master’s degree include:

- The satisfactory completion of all courses listed on the student’s approved program.
- A cumulative graduate grade point average of 3.0 or higher on all graduate courses that are a part of the student’s approved program.
- A cumulative graduate grade point average of 3.0 or higher on all graduate work completed at Evangel University.
- Completion of the comprehensive examination with scores stipulated by the department (for Psychology and School Counseling programs).
- Completion of a research thesis, project or non-thesis option as required by the department.
- Candidates must complete the Application for Graduation early in the semester in which all requirements will be completed. Application deadlines are published each term by the Graduate Studies office.

Students will be considered for graduation when they have met the above requirements and:

- Have completed the Application for Graduation
- Have paid the graduation fee
- Have satisfied all financial obligations to Evangel University.

Commencement

Commencement exercises are held at the end of the spring semester for students who wish to participate. Degrees are formally conferred at the end of the fall, spring and summer semesters. The degree conferral date posted on the transcript is the last day of the semester in which all graduation requirements are met.

Student Services

Bookstore

The Evangel University Founders Bookstore serves the Evangel community. The bookstore offers a large variety of books, Bibles, music, emblematic clothing, greeting cards, school and art supplies, electronics, software, candies, gifts, and sundries. Normal business hours are 9:00 a.m.- 6:00 p.m. weekdays and 10:00 a.m.- 2:00 p.m. Saturdays. Special hours are posted during registration, vacations and summers. Online purchasing available

Career Development

The goal of the Career Development office is to provide students with the knowledge and skills needed to explore career options. Exploration workshops, individual career counseling and self-directed computer programs are available. The Evangel Web site has an online career bulletin available for students and alumni. A password can be obtained from Career Development.

Cashier
School bills may be paid and checks may be cashed at the Cashier's window, located in the Administration Building. Normal hours are 8:30 a.m. - 3:30 p.m. weekdays except during the chapel (10:00 - 10:50 a.m.) and lunch hours (12:00 – 1:00 p.m.).

Food Services

Evangel provides food service for all students and employees. Each day a wide variety of entrees, sandwiches, soups, fresh fruits, breads, beverages and desserts are offered. The food service dietitian will work out individual programs for students with special dietary requirements or weight reduction programs prescribed by a physician. Various meal plans are available.

Graduate Student Housing

Graduate Students may apply for off-campus housing, i.e. campus apartments, duplexes, or houses. The residence halls are reserved for undergraduate students only. For information regarding off-campus housing, please contact the Physical Plant office.

Information Technologies

There are nine main computer labs on campus, including the Graduate & Professional Studies Student Lounge in Zimmerman 212. All Evangel students, whether resident or non-resident, will be issued a student email account upon registration. This will be the primary account used by professors and staff to contact students. Therefore, students should make it a practice to consult their student email frequently. For additional and current computer information, refer to the Evangel Web site.

Instructional Resource Center

The Instructional Resource Center is located in Zimmerman Hall, Room 204.

The IRC provides curriculum and instructional materials as well as media materials and equipment to enable students to prepare for instruction.

International Students

Evangel welcomes students from various cultures and believes they contribute significantly to the community. The Director of Student Life provides support services for all international students. Services include, but are not limited to orientation, career and academic counseling, resource referrals and social activities.

Library

The Klaude Kendrick Library has approximately 19,000 square feet of space and is within a ten-minute walk of all campus buildings and residence halls. The Library has over 120,000 catalogued books and bound periodicals. This includes a collection of about 20,000 microfiche book titles and 10,000 microfilm rolls of serials. The library also has subscriptions to large and growing collections of ebooks from various vendors. The Library makes available to all students the online version of the ERIC database from 1966 to date. The following databases are also available online: EBSCO Host; ProQuest; PsycARTICLES; PsycINFO; ATLA; Christian Periodical Index (CPI); Religious & Theological Abstracts. New databases are added each year as they become available.
Regular Hours

**Monday-Thursday** 7:30 a.m. - 11:45 p.m.
**Friday** 7:30 a.m. - 4:30 p.m.
**Saturday** 10 a.m. - 4 p.m.
**Sunday** 8:30 p.m. - 11:30 p.m.

Special hours are posted during registration, vacations, and summers.

Hours are subject to change.

**Post Office**

Graduate students may request a post office box on campus. The Post Office is located in Riggs Hall. Students may mail packages and purchase postal supplies, including envelopes, post cards, stamps and foreign air sheets.

**Recreational Facilities**

The Mabee Student Fitness Center contains facilities that support intramural sports programs, as well as general student recreation and fitness. Two basketball/volleyball courts, two racquetball courts, an indoor jogging track, an aerobics exercise room, and an extensive collection of top-of-the line exercise and weightlifting equipment are available in the Mabee Center for graduate students enrolled in four or more hours.

**Security**

The Evangel Security Department has the primary responsibility to protect Evangel community members and property. The Security Department office is located in Riggs Hall. The Security Department offers special services, including campus escort service, vehicle registration, traffic control, building security and assistance in medical emergencies. Dial extension 7000 on campus, for security services.

**Student Union**

The Cantrell Student Union and The Joust provide a place for relaxation and recreation, including computer access. The Joust offers a variety of grilled and cold sandwiches and daily lunch entrées, as well as salads, pizza, pastries, beverages, fruit and snacks.

**Wellness Center**

The Wellness Center is located in the John K. Cantrell Student Union and encompasses the Health Services and Counseling Services available to current students. Professionally trained counselors provide help to graduate students with their academic, personal or spiritual problems during the spring and fall semesters when enrolled in four or more credit hours. This professional service carefully guards confidentiality.

**Master of Education**

Evangel University School of Graduate Studies provides opportunities for advanced studies in education. The Master of Education degree programs prepare the Christian educator—one who is dedicated to instructional improvement, leadership and service to students—with the knowledge and skills essential to
educate in our dynamic, multicultural environment.

Department Theme

“Caring, Committed, Competent Teachers Shape the Future”

Graduate Degrees in Education

Master of Arts in Teaching

The Master of Arts program is designed for the educator whose career goal is to remain in the classroom as a master teacher and a teacher leader. The program provides a unique opportunity to integrate study, research and practical experience to enhance the teacher’s expertise.

Master of Education in Reading

The Master of Reading program prepares educational leaders in the field of reading as teachers, clinicians, supervisors, directors and coordinators of reading programs. Students explore trends and issues, improve assessment and develop effective methods and strategies for reading instruction.

Master of Education in Educational Leadership

The Master of Educational Leadership program prepares graduates for educational leadership positions at the school, district, state and national levels. Graduates will demonstrate conceptual, organizational, political, social, managerial, interpersonal and technical skills essential for successful school administrators. The program meets Missouri curriculum requirements for elementary or secondary principal certification.

Master of Education in Secondary Teaching

The Master of Education in Secondary Teaching program is designed for students who have completed a bachelor’s degree in a field other than education, but who now desire to use their expertise in the teaching profession.

This track will allow students to earn a secondary Missouri State Teaching Certificate in their bachelor’s subject area while completing the Master’s degree in education. The subject areas in which Evangel can certify are as follows:

- Art
- Business
- Drama/Speech
- English
- French
- Mathematics
- Music Education
- Physical Education
- Unified Science (Biology)
- Unified Science (Chemistry)
- Social Sciences
- Spanish
Objectives for Graduate Education Program

Candidates for the Master of Education degree will become effective practitioners through classroom learning, research and analysis of model programs.

A graduate of the education program:

- demonstrates a commitment to **lifelong learning** and improvement through reflection on, engagement in, and application of educational research and identified best practices.
- demonstrates an engagement in deep-level reflection on, study of, and conversation about the **integration** of their Christian faith with their learning, life, and vocation.
- demonstrates an understanding of the **central concepts**, tools of inquiry, and structures of their discipline within the context of a global society.
- demonstrates an understanding of and uses formal and informal assessment strategies to evaluate and insure the continuous intellectual, social, and physical development of students.
- demonstrates an ability to design **curriculum** and to engage in and lead curriculum planning based on state and district standards.
- builds learning networks through creating strong relationships and professional **partnerships** with school and university personnel, families, and community agencies in order to produce greater student success.
- understands how students learn and develop and provides opportunities that support the intellectual, social, and personal development of students.
- uses an understanding of individual and group motivation and behavior to create a **learning environment** that encourages positive social interaction, active engagement in learning, and self-motivation.
- is able to clearly articulate his or her **mission** as an educator, drawing on the rich resources of a Christian understanding of vocation, and faithfully carries out that mission.
- pursues continuous growth in their spiritual, emotional, and physical life, and contributes to the growth and **wellness** of others.
- exhibits a personal philosophy of education based on the Judeo-Christian ethic, which demonstrates compassion for human need and unique human differences, an understanding and appreciation for the **multicultural heritage** of humanity, and a sensitivity to differing value systems.
- effectively designs and implements instruction for **diverse** groups of learners, aligning instruction with national, state, and local standards in a positive learning environment.

Education Department Admission Policies

In addition to general admission policies, the Education Department requires:

- Three letters of recommendation, including one letter from a minister. The remaining letters are to be from at least two of the following categories:
  - a school administrator who is familiar with the applicant's competence
  - and professional effectiveness, an undergraduate advisor or university faculty member, or a student teaching supervisor or fellow teacher, or an employer.
- A GPA of 3.0 or higher in undergraduate or graduate coursework. A student with a GPA of less than 3.0 may be considered for provisional admission.
- Passing score on the Praxis II or acceptable scores on the GRE.

Summer Graduate Studies

Evangel University offers a unique format for summer graduate courses. Courses are offered in summer blocks of four weeks each. The curriculum is designed so that students may begin coursework with any one of the blocks. Students may enroll for a maximum of six hours of credit in each block.
Program and Research Options

The Master of Education degree program offers students three research choices. Students may choose to write a thesis, conduct an applied research project, or conduct no research and substitute additional coursework. The student selects the option that best meets personal and professional goals.

Literacy Partnerships

A credit limit of 12 credits earned through Literacy Partnership courses are accepted towards a Masters of Education at Evangel University. The credits must meet program requirements as per the degree requirements for each respective master degree program (see Degree Requirement Worksheets).

Master of Education In Reading

Hours Required: 35-38

This program of study requires 35 hours for graduation (or 38 hours if student is seeking a Missouri teaching certificate in reading).

Master of Education in Secondary Teaching

Hours Required: 38-40

Additional admission requirements:

- A bachelor's degree from a regionally accredited institution with a major in a field or coursework equivalent in which Evangel offers secondary certification.
- Minimum, cumulative grade point average of 3.0 in bachelor's degree program. A student with a GPA of less than 3.0 may be considered for provisional admission and must pass the Praxis II exam and earn a GPA of 3.0 during their first semester in the program in order to move to regular standing.
- Meet all admissions requirements as listed in the Evangel University Graduate Catalog.
- Prove completion of a 2- or 3-credit hour course in Adolescent Psychology or Lifespan Development at the baccalaureate level by providing official transcript OR complete either course as co-requisite to the Master of Education Secondary Teaching program.
- For full admission, students must pass the Praxis II exam in their subject area to qualify for state certification. A student who has not yet passed the Praxis II may be admitted on a provisional basis, if they otherwise meet admission requirements.

### Course Descriptions for Education

#### Curriculum (CED)

513. PHILOSOPHY OF TEACHING ELEMENTARY SCHOOL (3)

Explores the three primary philosophies of teaching found in today's elementary school classrooms: behaviorism, cognitivism, and existentialism.

533. THEORIES, PROBLEMS AND PRACTICE IN CURRICULUM DEVELOPMENT (3)
An exploration of contemporary curriculum development theories that impact the organization and structure of schools today. Provides a comprehensive analysis of the process of curriculum development.

612. CURRICULUM DESIGN FOR ELEMENTARY SCHOOL (2)

Individualized curriculum design course for elementary practitioners. Incorporates Internet-based research and accommodates first-time Internet users as well as accomplished Internet veterans.

Educational Leadership (EDL)

515. ADMINISTRATION OF SPECIAL PROGRAMS (3)

Designed as an entrance level course for the study of student personnel programs. Provides a broad overview of the essential elements of special education, guidance and counseling, activity and other student support programs as outlines by the E.L.C.C. and I.S.L.L.C. standards as well as the EAD Knowledge Base.

565. SCHOOL SUPERVISION AND IMPROVEMENT (3)

Designed as an introductory course in supervision and personnel issues. The course provides a broad overview of the essential elements of recruiting, training and nurturing quality instructional staff members as outlined by the E.L.C.C. and I.S.L.L.C. standards as well as the EDL Knowledge Base.

665. HUMAN RELATIONS AND COLLABORATIVE PROCESSES (3)

Focuses on leadership and school improvement through collaborative processes, and systems. Aspects of teaming, group processes and perceptions, problem solving and conflict resolution will be explored.

685. EDUCATIONAL LEADERSHIP CAPSTONE (3)

Designed to be the last course a student takes in the Educational Leadership program. It is designed to provide the student the opportunity to complete the required portfolio, demonstrate knowledge and skills required with the ISLLC standards and take the assessments necessary for graduation from the Educational Leadership program.

692. EDUCATIONAL LEADERSHIP INTERNSHIP (2)

Enables students to build skills and knowledge base. It enables prospective educational leaders to observe best practices and compare processes and procedures as they apply theory in the learning environment. Students will create action plans, produce a portfolio, and write reflections.

693. INTERNSHIP (2)

Enables students to build skills and knowledge base. It enables prospective educational leaders to observe best practices and compare processes and procedures as they apply theory in the learning environment. Students will create action plans, produce a portfolio, and write reflections.

Education (EDU)

500. RESEARCH PROJECT/THESIS (OFF CAMPUS) (0)

Designed to allow graduate students in the Education program to maintain at least half-time enrollment while working on project/thesis during fall/spring semesters. Students choose when they pay for EDU 698/699 and until they pay, they stay registered for the course.

501. IMPLEMENTING VOCATIONAL BUSINESS EDUCATION PROGRAMS (3)

In-depth investigation of curriculum development and implementation of vocational business education
classes on the high school and middle school level. Includes research of issues and procedures for career and technical education in the public and private sectors leading to knowledge of core competencies for marketing education programs.

512. SPECIAL EDUCATION- CONSULTING WITH PARENTS AND TEACHERS (2)

Explores counseling techniques, current issues, trends, and problems in all areas of exceptionalities, including the gifted and at-risk populations. Includes communication skills with exceptional children and their families. Topics are determined by current legislative initiatives and school trends.

533. THEORIES, PROBLEMS AND PRACTICE IN CURRICULUM DEVELOPMENT (3)

An exploration of contemporary curriculum development theories that impact the organization and structure of schools today. Provides a comprehensive analysis of the process of curriculum development.

535. EDUCATIONAL TECHNOLOGY (2)

Designed to aid teachers in becoming better acquainted with the broad range and interrelated use of instructional media materials and techniques. Emphasis on the practical problem of choosing, using, and inventing instructional materials.

536. METHODS IN SECONDARY TEACHING SPECIALTY (3)

Emphasizes the fundamentals of teaching methods, curriculum, and techniques in a selected subject area. The student will select the major area of emphasis.

543. HISTORY AND PHILOSOPHY OF AMERICAN EDUCATION (3)

Explores the basic philosophical and historical foundations that undergird the American educational system.

545. ANALYSIS OF THE ORGANIZATIONAL ENVIRONMENT (3)

Cross listed with MKT 545.

563. EDUCATIONAL ASSESSMENT (3)

Designed to supply professional educators with the tools and techniques to assess student achievement.

582. SPECIAL STUDIES IN CLASSROOM MANAGEMENT AND DISCIPLINE (2)

Presents models of classroom management and related discipline issues. Research oriented with a focus in the diversity of current American culture and classroom practices.

590. SEMINAR IN EDUCATIONAL TOPICS (2)

Seminar in current educational topics.

591. SEMINAR IN EDUCATIONAL TOPICS (2)

Seminar in current educational topics.

592. SEMINAR IN EDUCATIONAL TOPICS (2)

Seminar in current educational topics.

594. SEMINAR IN EDUCATIONAL TOPICS (2)

Seminar in current educational topics.

595. SEMINAR IN EDUCATIONAL TOPICS (2)
Seminar in current educational topics.

627. SEMINAR IN STUDENT TEACHING (1)

Addresses current issues in education. Conducted by faculty and university supervisors for all student teachers. Must be taken concurrently with student teaching.

633. EDUCATIONAL PSYCHOLOGY APPLIED (3)

Designed for Education majors as they progress from the role of practitioners to the research-scientists. Incorporates psychological theory, research, and practice in the classroom.

690. PRACTICUM IN SUBJECT AREA SPECIALTY (2)

A seminar in current educational topics.

694. GRADUATE EDUCATION SEMINAR (1)

Offered on demand.

698. RESEARCH PROJECT (3)

An independent project that shows the student's ability to conduct scholarly research that has a significant application. The student must follow the guidelines listed in the department for seeking permission, defending, and submitting the project.

699. RESEARCH THESIS (3)

An independent study that demonstrates the student's ability to complete a scholarly research thesis. The student must follow the guidelines listed in the department for seeking permission, defending, and submitting the thesis.

Reading (RDG)

513. CONTENT AREA READING EDUCATION (3)

Examines diagnostic, methodological, organizational, and administrative issues related to content reading instruction. Emphasis on research and application of strategies for developing functional reading in content fields.

522. LANGUAGE DEVELOPMENT AND LITERACY (2)

Explores the issue of emergent literacy and the relationship of language development and early literacy. Human growth as it relates to the development of oral language, reading, and writing.

543. METHODS OF READING FOR STUDENTS WITH LITERACY PROBLEMS (3)

Provides opportunities to explore effective instructional strategies which assist students with literacy problems. Students explore preventive, early intervention, and remedial strategies.

590. SEMINAR IN READING TOPICS (2)

Seminar in current reading topics

611. INDIVIDUAL ASSESSMENT-INTELLECTUAL (2)

Presents the theoretical and assessment process of human intelligence. Definitions and nature of intelligence, research, development, and standardization of intelligence. Discusses and critiques major
individual intelligence tests. Develops student assessment techniques and skills.

633. CURRENT ISSUES AND TRENDS IN READING EDUCATION (3)

Current issues and trends in reading education, such as the whole language philosophy and its effect on reading curriculum and classroom instruction.

653. READING DIAGNOSIS (3)

Current trends and procedures used in assessing literacy problems. Classroom and clinical approaches and current research and knowledge base in literacy education.

690. READING PRACTICUM (3)

Practical experience in formal/informal assessment of students, diagnosis of student strengths and weaknesses, and planning and implementing instruction for reading improvement. Each graduate student is assigned 2-3 students to work with during the practicum.

691. READING PRACTICUM (3)

Provides practical experience in formal/informal assessment of students, diagnosis of student strengths and weaknesses, and planning and implementing instruction for reading improvement. Each graduate student is assigned 2-3 students to work with during the practicum.

Special Education (SEC)

512. SPECIAL EDUCATION- CONSULTING WITH PARENTS AND TEACHERS (2)

Provides strategies for communicating and collaborative problem solving with parents and other teachers as members of the multidisciplinary team. Students focus on the use of communication models to assist parents in relating feelings and needs, in accessing resources, and in advocacy. Additional topics determined by current legislative initiatives and school trends.

582. SPECIAL STUDIES IN CLASSROOM MANAGEMENT AND DISCIPLINE (2)

Models of classroom management and related discipline issues. Research oriented with a focus in the diversity of current American culture and classroom practice.

Teaching English to Speakers of Other Languages (TSOL)

532. LANGUAGES AND CULTURE (3)

Focuses on the interrelationships of language and culture, aspects of linguistic and cultural diversity, cross-cultural communication, and cultures issues in the classroom. Techniques for fostering cooperative learning, resolving conflict, and meeting student needs in multicultural and language classrooms.

536. SECOND-LANGUAGE ACQUISITION (3)

Studies theories and models of second language acquisition. The psychological, political, and socio-cultural factors contributing to second language acquisition, processes involved in acquiring a second language, and instructional implications of recent findings.

538. ESL ASSESSMENT (3)

Provides a focus on principles and practices of second-language assessment. Students review and analyze available assessment tools.
Review of methods and materials currently being used in the teaching of English to speakers of other languages. Using current research, students read, explore, and discuss the most current practices pertaining to teaching, motivation, and classroom management that effectively reach second language students.

**Master of Organizational Leadership**

Many busy professionals in business, education, health care, government, or ministry organizations are eager to earn a master's degree that will enhance their potential to lead their organizations or operating units to sustained levels of performance excellence. The Master of Organizational Leadership program is ideal for people with several years of work experience who are in positions of responsibility where they can potentially influence change.

You can earn the Master of Organizational Leadership by completing this 36 credit hour program that integrates Christian principles and the concept of transformational leadership with the skills needed to develop a positive, results-oriented organizational culture that maximizes the potential of its people and the performance of the organization. Knowledge and skills will be immediately utilized in your organization through assignments and projects. Further benefit will come from sharing the experiences of other students from all types of organizations. The program projects enable you to develop and demonstrate skills in performing a formal organizational assessment and develop an improvement analysis of your organization's or work unit's systems and their effectiveness.

The Master of Organizational Leadership program can be completed in the seated program or the online hybrid format. The seated program meets on campus throughout each semester while the hybrid option begins the semester with a residential experience two times each year and then allows the student to return home and complete the remaining course work. The two delivery methods are synchronized so that students may change at the beginning of a semester from one delivery method to the other. Both programs will incorporate online learning activities and can be completed in about two years.

The objectives of the Master of Organizational Leadership program are the following:

- Understand and respond effectively to the dynamics of global and multi-cultural environments on effective leadership;
- Demonstrate a theoretical and practical understanding of organizations, cultures, teams and individuals from a systems perspective;
- Understand issues related to strategic planning and change management in organization;
- Develop an idea from planning through implementation stages;
- Explain essential concepts of budgeting and financial planning;
- Demonstrate an understanding of the principles of risk management;
- Demonstrate polished, professional oral and written communication;
- Explain human resource development and deployment in organizations;
- Demonstrate effective, ethical use of technology for organizational feedback and knowledge management; and
- Analyze and synthesize information to develop solutions to complex organizational problems.

**Admission Policies**

In addition to general admission policies, the Organizational Leadership program requires the following:

- Three letters of recommendation, including one letter from a pastor. The remaining two are to be from
the following categories: a current or past supervisor who is familiar with the applicant's competence and professional effectiveness, and an undergraduate advisor or university faculty member.

- A resume identifying past and current leadership and/or management responsibilities and the support for the program requirement of the ability to apply learning projects, including program projects, to your work place.
- Acceptable GRE scores on the verbal, quantitative and analytical writing sections (scores of 500 or better on both the verbal and quantitative sections and a 4.5 or better on the analytical writing section are preferred). The Graduate Management Admission Test (GMAT) may be substituted for the GRE for Organizational Leadership program applicants.

Once admitted, students will be required to identify a leader in their organization who will be their mentor and sponsor for accessing information needed to complete work related assignments and the three projects. Students without more extensive work experience will be required to identify an organization which they will be able to use as a resource to meet the course and project requirements.

### Master of Organizational Leadership Course Descriptions

**501. FOUNDATIONS OF LEADERSHIP (3)**

An examination of theories in leadership and management and analysis of assessing organizational leadership effectiveness. Includes an examination of the relationship of personal values, spirituality, ethical choices, and social responsibility and their impact on the leader's ability to influence workplace and public policy.

**527. COMMUNICATIONS AND COMMUNITY RELATIONS (3)**

Explores effective professional communication techniques for writing, speaking and listening. Includes public presentations, formal report and grant writing, and preparation and analysis of policy. Routine business communications and meeting facilitation skills are included.

**545. INFORMATION SYSTEMS MANAGEMENT (3)**
This course examines the development and use of systems for gathering and analyzing information and data to support daily operations and organizational decision making and the measurement and analysis of organizational performance. Students will consider methods to identify and develop key non-financial measures for processes and organizational performance, including assessment methods, statistical tools, and an overview show these measures are analyzed and used in effective decision making. Information management systems, security, and interfaces will also be explored.

550. THE EFFECTIVE ORGANIZATION (3)

Examination of the Baldrige National Quality Program's Criteria for Performance Excellence and how it is used to assess and improve organizational performance. Cases will be used to explore effective approaches to assessment, report writing, and evaluation. Designed to introduce student to the capstone project. Students will identify and organization for applied research and a mentor within the corporation who will assist them in obtaining access to the information needed to complete the assessment. All information in the organizational assessments will be confidential.

580. ORGANIZATIONAL ANALYSIS PROJECT (1)

The organizational analysis project requires the student to complete an applied assessment that demonstrates his/her ability to develop an organizational profile, identify potential gaps in key information and performance requirements, and propose leader's initiatives to close key gaps.

594. GLOBAL EXPERIENCE: MIDDLE EASTERN HISTORY & CULTURE (1)

This course combines classroom and on site experience that will familiarize the student with local history, culture, customs, religious practices, business practices and etiquette in various countries. The primary goal is greater sensitivity to the differences between those contexts and our own.

596. LEADERSHIP BRAND PROJECT (1)

The leadership brand project requires the student to complete a strategic marketing plan that addresses real opportunities in an organization or unit of an organization and reflects organizational values. This project allows the student to create a practical and useful expression of his or her own unique leadership brand to the organization.

601. STRATEGIC MANAGEMENT (3)

Explores the formulation, implementation, and management of key strategies that will maximize the organization's core competencies, fulfill customers' and other stakeholders' expectations, and create a sustained level of performance excellence. The course examines mission, vision, values, long-and short-range goals and objectives, and various kinds of strategies and controls used to develop the organization's direction and sustain its performance.

645. MANAGERIAL FINANCE (3)

Examines the requirements of an effective financial accounting and reporting system and the interpretation of financial reports for proprietary, non-profit, and governmental organizations. Explores decision processes and models for evaluating finance-related options, investing and managing cash, managing and preventing risk, and allocating financial, human, and capital resources. Explores the use of focus groups decision matrixes, control charts, and other tools to investigate problems, analyze data and information, and identify potential solutions.

650. ANALYSIS OF THE ORGANIZATIONAL ENVIRONMENT (3)

Reviews concepts and approaches to develop and analyze an organization's relationship with its "customers", including how to develop and analyze satisfaction surveys, market analysis, quality function deployment (QFD) and other tools to assure that the needs of the organization's current and future customers are met or exceeded.
655. RISK MANAGEMENT (3)

This course will explore all aspects of organizational risk assessment and risk management through prevention, avoidance and insurance. Key issues related to risk management including property loss, building risks, vehicles, environment, business-loss, employee health and welfare, and corporate and personal liability will be discussed. Emphasis will be placed on liability and financial risk in organizations.

660. SYSTEMS DESIGN AND DEVELOPMENT (3)

This course focuses on fundamental operational issues in the manufacturing and service industries, and the appropriate tools to manage those issues. Special attention will be given to project management, including PERT, critical path scheduling, and time cost methodologies. Other operations management issues, such as quality management and control, capacity planning, plant location, process/product layout and design, production planning and scheduling, forecasting and inventory management, and supply chain management will be addressed. To complement the operational aspects of process management, methodology for assessing risks associated with alternatives is also presented. Analytical tools discussed include Decision and Risk Analysis, statistical quality control, break-even analysis, and simulation modeling. Where appropriate, the use of operations management techniques associated with service and distribution organizations will be demonstrated.

661. PROCESS MANAGEMENT (3)

This course focuses on managing the processes to produce and deliver services or products, including creation, development, production, and distribution. Related objectives include managing purchases, resource management, quality control, storage, logistics and evaluations with an emphasis on efficiency and effectiveness of processes. Explores the use of flow charts, decision matrices, control charts, and other tools to investigate problems, analyze data and information, and identify potential solutions.

665. ORGANIZATIONAL DESIGN AND DEVELOPMENT (3)

Explores the primary roles of managers and leaders within the context of organizational environments, including economic, technological, political, and social. Organizational design will also be studied in the context of globalization and organizational life cycles and their impact on organizational culture and how it will lead the facilitate change.

672. MARKETING AND PUBLIC RELATIONS (3)

Discusses the role of public relations in customer relations, stakeholder communications, and business development. Emphasizes an integrated approach with other marketing tools and the importance of ethics and integrity in public communication about the organization and its products and services. Explores concepts that are essential and adaptable to organizations of any size or type, including nonprofits, government, small businesses, and corporations.

675. HUMAN RESOURCE MANAGEMENT (3)

Examines the organizational human resource function and contemporary techniques for managing human resources. Discussions focus on empowerment, legal issues, work force diversity, managing change, recruitment and selection, training and development, compensation, managing relations, and health and safety.

680. SYSTEMS DEVELOPMENT PROJECT (1)

This project requires students to identify an organizational problem that is amenable to intervention. Students will collect data regarding the problem, propose a solution, and provide data regarding the solution that was developed. In this course, students will apply knowledge of Systems Development, project management, risk management, and data analysis. The end result will be a report and face-to-face presentation of the entire project to their peers and instructors.

685. CAPSTONE PROJECT (3)
Students will propose an applied research project using the Baldrige Criteria for Performance Excellence or a similar tool to assess an organization or propose an applied research project to resolve an existing problem or develop a significant program to be used within their work environment. Students will make a formal oral and visual presentation of their findings to program faculty and peers and submit a written document of the project.

699. ORGANIZATIONAL INTERNSHIP (1)

Enables students to establish a relationship with an organization that provides opportunities for increased understanding and application of course material regarding effective leadership in the organization. The student will be assigned to an organizational mentor who will provide the student access to business practices and organizational information. The student will develop a contract with the sponsoring organization identifying learning objectives that will then be assessed at the end of each semester. This internship is intended for international students residing in the United States that may not have opportunity for employment. This internship will continue for each fall and spring semester the student is renrolled in the program.

Master of Science in Psychology

Graduate Degrees in Psychology

**Master of Psychology** - The general psychology degree is designed to provide students with theoretical knowledge and experimental research experience to prepare them for entry into a doctorate program in psychology.

**Master of Science in Clinical Psychology** - The Clinical Psychology degree is designed to provide students with theoretical and practical training to prepare them to work in a variety of counseling and mental health settings, to become Licensed Professional Counselors, and to enter a doctoral program in Clinical/Counseling Psychology. This degree program provides graduates with skills, knowledge, experience and personal growth, which empower students to pursue careers as clinicians or to pursue doctoral degrees.

**Master of Science in Counseling Psychology** - The Counseling Psychology program prepares individuals to enter doctoral programs in Counseling Psychology or to obtain a license as a professional counselor. Students can prepare to become a Licensed Professional Counselor without completing a thesis and yet have the necessary research skills required of the scientist-practitioner professional or those pursuing a Ph.D. or Psy.D. in other specialty areas.

Objectives for Master of Science in Psychology Program

Candidates for the M.S. in Psychology degree will:

- Demonstrate skills and competencies in administering and interpreting psychological tests
- Demonstrate a personal philosophy of Christian ethics that reflects an integration of Biblical principles with psychology, research and personal faith
- Demonstrate understanding of theory and skills necessary to design, conduct and analyze research
- Commit to lifelong improvement as professionals through reading, research and reflection

Objectives for Master of Science in Clinical and Counseling

Candidates for the M.S. in Clinical Psychology and in Counseling Psychology degree will:

- Exhibit knowledge and understanding of psychological theories related to human behavior and
development and diagnosis and treatment of psychological disorders
- Demonstrate skills and competencies in administering and interpreting psychological tests
- Demonstrate a personal philosophy of Christian ethics that reflects an integration of Biblical principles with psychology, therapy and personal faith
- Demonstrate understanding of theory and skills necessary to design, conduct and analyze research
- Display an appreciation for and sensitivity to the unique characteristics and heritage of people of diverse cultures and value systems
- Commit to lifelong improvement as professionals through reading, research and reflection

Upon completion of this degree program, candidates for the M.S. in Psychology degree will:
- Demonstrate knowledge of the biological bases of human behavior.
- Demonstrate skills and competencies in the administration, scoring and interpretation of tests of cognitive ability.
- Demonstrate the ability to design, carry out, and report the results of multivariate research.

Upon completion of this degree program, candidates for the M.S. in Clinical Psychology degree will:
- Demonstrate knowledge of the biological bases of human behavior.
- Demonstrate skills and competencies in the administration, scoring and interpretation of tests of cognitive ability.
- Demonstrate the ability to design, carry out, and report the results of multivariate research.
- Demonstrate the skills and competencies to assess and treat persons in a medical/health or clinical care setting.

Upon completion of this degree program, candidates for the M.S. in Counseling Psychology degree will:
- Demonstrate skills, knowledge and competencies in career counseling and assessment.
- Demonstrate skills and competencies in the administration, scoring and interpretation of measures of career assessment.
- Demonstrate the knowledge to assess and treat persons who present with marriage and family difficulties.
- Demonstrate the skills and competencies to assess and treat persons in an agency or other community mental health setting.

Admission Policies

In addition to general admission policies, the Psychology program requires the following:
- Hold an earned baccalaureate degree from an accredited college or university or be accepted into an Evangel University 5-year BS/MS degree program.
- Acceptable GRE on the verbal, quantitative and analytical sections (scores of 500 each on the verbal and quantitative sections and a 4.5 on the analytical writing section are preferred).
- Student will demonstrate academic writing proficiency in APA style.
- 21 credit hours of undergraduate psychology courses are required of applicants and must include a statistics course, a research methods course and an introduction to psychology course. Other courses should be from among the following areas of study:
  - Abnormal Psychology
  - Cognitive Psychology
  - Developmental Psychology
  - Educational Psychology
  - Experimental Psychology
  - Industrial/Organizational Psychology
  - Psychology of Learning
  - Psychology of Personality
  - Psychology of Testing
  - Physiological Psychology
  - Social Psychology
Articulation Agreement with Regent University’s Doctoral Program in Clinical Psychology (Psy.D.)

Evangel University students with an M.S. in Clinical or Counseling Psychology who are accepted into Regent University’s doctoral program in Clinical Psychology will be afforded an advanced standing, can have up to 39 credits waived, and will be given a 10 percent tuition discount.

Course Descriptions for Psychology
501. PHYSIOLOGICAL BASIS FOR BEHAVIOR (3)

Introduction to the organization of the brain in terms of anatomy, cellular structure, and biochemical activity. Includes general principles of brain organization and the mechanisms of memory, language, and emotional processes. Also brain development as influenced by environment and injury. General principles of brain organization are applied to substance abuse, psychiatric disorders, and specific development disorders.

503. ADVANCED DEVELOPMENT PSYCHOLOGY (3)

In-depth review of the life-long developmental process, covering the various stages of growth and theories regarding human life changes. The process of change and how it affects and is affected by counseling/therapy.

506. PSYCHOPATHOLOGY AND PERSONALITY (3)

Categories of psychopathology as defined in the DSM-IV. The process and language of psychodiagnosis. Uses limitations and the relationships of diagnosis to treatment.

507. METHODS OF RESEARCH AND STATISTICS (3)

Overview of basic research processes and the skills necessary to develop and conduct graduate research projects. Addresses issues related to the philosophy of science and the development role of scientific inquiry in research along with specific issues related to research design.

508. INTERMEDIATE RESEARCH II (3)

Design and statistical analysis of multivariable experiments (Multiple Regression and factorial ANOVA).

509. ADVANCED RESEARCH III / INTERNSHIP (3)

A methods and design course that extensively explores research designs and data analysis utilizing analysis of variance in an internship setting. Four major permutations of ANOVA will be covered: one-way, factorial analysis of variance, repeated measures, and analysis of covariance. These will be taught in modules that individually address each of the ANOVA permutations. A grounds-up approach will be used to aid in understanding design and statistical concepts in each module. Computer assisted analysis will be an important component of the course as students associate research designs with corresponding analysis of data. Application will consist of student data, professor supplied data, and author supplied data. Power analysis will also be integrated within each of the modules.

521. PROFESSIONAL ORIENTATION (3)

Part of the practicum courses. Introduction to the issues attendant in becoming a professional counselor. Involvement in a group experience with other classmates provides an introduction to the basics of the listening process. Uses both audio and video taping with volunteer clients in preparation for practicum work. Taken concurrently with PSY 596.

523. THE HELPING RELATIONSHIP AND CLINICAL INTERVENTION (3)

Acquaints the novice counselor with basic skills necessary for counseling. Discusses, demonstrates, and practices listening skills, reflection, confrontation, interpretation, diagnostic interviewing, and crisis intervention. Students participate actively in exercises and role play and engage in the process of self-understanding and self-assessment. Open only to admitted Counseling Psychology students. Taken concurrently with PSY 597.

526. THEORIES OF COUNSELING AND PSYCHOTHERAPY (3)

Examines the major contemporary theories of counseling and psychotherapy and the relationship of the theories studies to clinical practice. Addresses how the different theories view counseling as a potential means of change, growth, learning, and/or cure. Discusses the components of an adequate theory.
Students then define their own theoretical orientations.

527. MARRIAGE & FAMILY THERAPY (3)

Various issues related to marriage, family, and child therapy. Includes guest lecturers and multi-media.

530. INTEGRATION OF CHRISTIAN BELIEF AND THERAPY (1)

Designed to encourage the student to integrate a set of truths from theology and psychology that mirrors the wholeness and unity of God's created and revealed truths. Uses the data collected through the best methods in each discipline, while recognizing that we are "looking through a glass darkly" (I Cor. 13:12 NIV).

532. INTEGRATION OF CHRISTIANITY AND PSYCHOLOGY (1)

This course is the second in a series of one-hour integration courses and is designed to facilitate the process of theoretically integrating Christian beliefs with the science of psychology. This interdisciplinary integration is explored through various models of integration. Students will engage in thoughtful discussion on difficult integrative topics and develop their own perspectives and convictions regarding integration.

563. COGNITIVE NEUROSCIENCE (3)

This course reviews knowledge and theories about how the human brain performs various cognitive activities. Cognitive neuroscience includes topics such as attention, learning, memory, thinking, reasoning, problem-solving, language learning, and social cognition. Prerequisites: 12 hours of psychology (that include statistics and at least one research course). Graduate students will have additional course requirements.

593. RESEARCH THESIS (1)

A single credit for additional thesis hours for those who wish to take only 1 hour at a time per semester.

596. PRACTICUM (2)

To be taken concurrently with PSY 521. Includes the concerns and ethics of a professional counselor. Personal assessment to determine areas for professional growth.

597. PRACTICUM (2)

To be taken concurrently with PSY 523. Includes intake skills, interview skills, diagnosis, and treatment plans.

598. INTERNSHIP I (3)

First semester of a year-long advanced supervision seminar focusing on the integration of theory and practice. Taken during the second year of the student's program (600 hours minimum of field experience required). Students do case presentations reflecting on psychodiagnostics, treatment planning, socio-cultural context, transference/countertransference, and referrals.

599. INTERNSHIP II (3)

Second semester of a year-long advanced supervision seminar focusing on the integration of theory and practice. Taken during the second year of the student's program (600 hours minimum of field experience required). Students do case presentations reflecting on psychodiagnostics, treatment planning, socio-cultural context, transference/countertransference and referrals.

608. INDEPENDENT RESEARCH I (3)

Credit for independent research (normally conducted with faculty research and taken concurrently with PSY 508).

609. INDEPENDENT RESEARCH II (3)
Continuation of PSY 608. Taken concurrently with PSY 509.

610. PSYCHOLOGICAL TESTS AND MEASUREMENTS (3)

Introduction to principles of psychometric theory with a specific focus on the development, selection, use, and evaluation of standard psychological assessment instruments for clinical and research application.

611. INDIVIDUAL ASSESSMENT I - INTELLIGENCE (3)

Individual Assessment: Presents the theoretical and assessment process of human intelligence. Investigates the definitions and nature of intelligence and the research, development, and standardization of intelligence. Also discusses and critiques major individual intelligence tests. Develops student assessment techniques and skills.

612. INDIVIDUAL ASSESSMENT II - PERSONALITY (3)

Individual Assessment: Presents major issues involved in measuring personality and major personality measurement procedures. Develops technical skills and interpretation of objective and projective personality measures.

625. GROUP COUNSELING (3)

Explores group development, dynamics, and counseling theories. Addresses group leadership styles and group counseling methods and skills. Reviews several approaches to conducting group counseling.

696. CAPSTONE SEMINAR (1)

PSY 696 is a professional seminar designed to provide students with a forum to acquire information related to developing and maintaining a professional practice. Although a schedule of topics has been planned based on common issues and previous experience, student input will be welcome to create meaningful learning experiences.

697. RESEARCH THESIS (3)

Independent study demonstrating the student's ability to complete a scholarly research thesis. Student must follow department guidelines for seeking permission, defending, and submitting the thesis.

698. RESEARCH PROJECT (3)

Independent project revealing the student's ability to conduct scholarly research that has a significant application. Student must follow department guidelines for seeking permission, defending, and submitting the project.

699. RESEARCH THESIS (3)

Independent study that demonstrates the student's ability to complete a scholarly research thesis. Student must follow department guidelines for seeking permission, defending, and submitting the thesis.

Master of Science in School Counseling

Candidates for the M.S. in School Counseling degree will demonstrate an understanding of:

- Psychological theories related to human growth and development and personality
- The effects of human diversity on learning and development within the context of a global society and a diverse community of families
- The principles of measurement and assessment, for both individual and group approaches
- Career Development and personal planning processes across the lifespan and methods of assisting learners in career exploration, goal setting, decision making and planning
• Classroom guidance methods and techniques
• Development, implementation and maintenance of a comprehensive guidance program that provides responsive counseling services to all learners in the school community
• A personal philosophy of Judeo-Christian ethics that reflects an integration of Biblical principles with psychology, counseling and a personal faith
• A commitment to lifelong improvement as professionals through reading, research, reflection, development of professional relationships and continued adherence to the ethical, legal and professional principles of the school counseling profession

Admission Policies

In addition to general admission policies, the School Counseling program requires the following:

• Three letters of recommendation, including one letter from a minister. The remaining two are to be from a school administrator who is familiar with the applicant's competence and professional effectiveness, an undergraduate advisor or university faculty member, or a student teaching supervisor or fellow educator, teaching supervisor or fellow educator.
• The Miller’s Analogies Test is the preferred entrance exam for School Counseling (score of 400 or above preferred); however, if an applicant has previously taken the GRE, those scores may be substituted for the MAT.

School Counseling Certificate Program

Evangel University also offers a “Certification Only” option for those who already have a Master’s degree in education, psychology, or an approved related field, and are not seeking a degree in school counseling. This program option completes all course requirements needed for school counseling certification in the state of Missouri. The number of required courses for certification will depend on what course a student is allowed to transfer in to Evangel. Financial aid is not available for those seeking certification only. Once a student has enrolled at Evangel and/or a plan has been filed with the state, students will be expected to complete remaining coursework at Evangel.

For LPC Certification

If a student intends to pursue LPC certification with the State of Missouri in addition to the Master of Science in School Counseling, the following course is required:

• Psychopathology Course

LPC certification also requires 3000 supervised hours of clinical and/or school counseling experience, and passing the LPC examination. For more information visit the Missouri Division of Professional Registration at HTTP://pr.mo.gov/counselors.

### Course Descriptions for School Counseling

#### 500. CURRICULUM AND INSTRUCTION FOR THE ELEMENTARY SCHOOL (2)

Overview of the elementary school program. Emphasizes lesson planning, curriculum organization, and methods and materials appropriate for the elementary school classroom. Required by DESE for school counseling students with a non-education bachelors degree.

#### 501. CURRICULUM AND INSTRUCTION FOR THE SECONDARY SCHOOL (2)

Overview of the secondary school program. Emphasizes lesson planning, curriculum organization, and methods and materials appropriate for the secondary school setting. Required by DESE for school counseling students with non-education bachelors degree.

#### 502. FOUNDATIONS OF GUIDANCE AND COUNSELING (3)

The philosophy, functions, and role of guidance in the educational program. Problems, responsibilities, and organization of guidance in elementary, middle, and secondary schools give impetus to identify and serve the needs of young people. Presents counseling and assessment aspects of the guidance program.

#### 503. ADVANCED DEVELOPMENTAL PSYCHOLOGY (3)

Designed to study the developmental process from prenatal through adolescence. Various theories and
stages of development are presented. Application of developmental theories to child and adolescent psychopathology and the counseling/therapy process is explored.

512. COUNSELING TECH/ CURRENT ISSUES/EDUC. OF SPEC. POPULATIONS (3)

Explores counseling techniques, current issues, trends, and problems in the education of special populations. Includes issues related to all areas of exceptionalities, including the gifted and at-risk populations. Includes communication skills with exceptional children and their families. Topics determined by current legislative initiatives and school trends.

521. PROFESSIONAL ORIENTATION AND ETHICS (3)

Introduces the field of counseling and therapy, focusing on the topics of ethics, professionalism, legal issues and responsibilities.

522. PSYCHOLOGY OF THE MIDDLE SCHOOL STUDENT (2)

Provides the psychological foundation relevant to appreciating and comprehending the diversity of the middle school age group.

523. THE HELPING RELATIONSHIP (3)

Designed to expose students to core communications, helping and intervention skills essential to effective counseling/therapy. Role-playing to demonstrate and practice these skills occurs. Diagnostic interviewing, crisis intervention, treatment planning, and conducting various types of assessments are discussed and practiced.

526. THEORIES OF COUNSELING AND PSYCHOTHERAPY (3)

Examines the major contemporary theories of counseling and psychotherapy. The relationship of the theories' studies to clinical practice are examined. Ways the different theories view counseling as a means of potential change, growth, learning and/or cure are addressed. The components of an adequate theory and studies. Students are expected to define their own theoretical orientations.

533. THEORIES, PROBLEMS, AND PRACTICE IN CURRICULUM DEVELOPMENT (3)

Exploration of contemporary curriculum development theories that impact the organization and structure of schools today. Comprehensive analysis of the process of curriculum development.

563. EDUCATIONAL ASSESSMENT (3)

Supplies professional educators with an array of tools and techniques needed to assess student achievement.

582. SPECIAL STUDIES IN CLASSROOM MANAGEMENT AND DISCIPLINE (2)

Presents models of classroom management and related discipline issues. Research oriented with a focus on the diversity of current American culture and classroom practice.

604. CAREER DEVELOPMENT AND ASSESSMENT (3)

Presents the philosophy and conceptual framework for career education. Explores awareness, exploration, decision making, preparation, and employment. Also develops assessment strategies.

611. INTELLIGENCE TESTING (3)

Provides supervised practice and training in the administration, scoring, interpretation, and reporting of individual intelligence testing in school settings, specifically the Weschler Individual Assessment of Children (WISC-IV) and the Stanford Binet (SB-V). The professional school counselor understands and applies principles of measurement and assessment in working with all students by meeting the following
competency objectives.

625. GROUP COUNSELING AND THERAPY (3)

Explores a broad understanding of group development and dynamics theories. Group leadership styles are discussed, as well as counseling methods and skills. Students will be expected to facilitate and participate in group sessions.

627. COUNSELING AND THERAPY WITH DIVERSE POPULATIONS (3)

Focuses on counseling/therapy interventions and issues in working with clients of diverse racial, ethnic, and cultural backgrounds. Emphasis is also placed on counseling special populations in regard to age, gender, and disability.

633. EDUCATIONAL PSYCHOLOGY APPLIED (3)

This course is designed for practitioners in the school setting to apply psychology to teaching with emphasis on educational research and practical applications relating to contemporary issues. Because teaching is both a science and an art, educational psychology focuses on three areas; theory, research and applications.

698. FIELD SUPERVISED INTERNSHIP IN SCHOOL SETTING (3)

First semester of a year-long supervision seminar focusing on the integration of theory and practice. Taken while students are engaged in their school practicum/internship (600 hours minimum of field experience required). Students are required to do case presentations reflecting on psychodiagnostics, treatment planning, socio-cultural context, transference/countertransference, and referrals.

Appendix A

Evangel University Community Life Statement

“Christ is Lord” is the essence of Evangel University. We seek to be a community in which each member actively participates and where there is a sense of belonging, mutual respect, and caring. In such an atmosphere, members can fully develop into the person God wants them to be. Our goal is to integrate Biblical truth with every area of life, submitting ourselves to Christ and allowing the Holy Spirit to direct and control us. Accordingly, while on campus, during an off-campus class, or at any Evangel University function, students, faculty, staff, and administrators are expected to:

- Respect God, others and self at all times
- Abide by the life-style standards of Evangel University as outlined in the catalog Seriously pursue academic and spiritual growth through diligent, disciplined behaviors Exercise financial responsibility
- Maintain positive health habits by abstaining from alcohol, tobacco, and abusive drugs
- Dress so that a professional learning environment is maintained
- Refrain from vulgar, obscene, or suggestive language
