

Bachelor of Arts and Bachelor of Science in Psychology

The following Program Learning Outcomes have been established by Evangel faculty to define the areas of knowledge and skills that students graduating from this major degree program should have developed.

1. Students will have knowledge of the major theoretical approaches, subfields, and trends in psychology.
2. Students will apply the scientific method and critical thinking in the study of human behavior and experiences.
3. Students will understand human behavior in light of culture, diversity, and human development.
4. Students will express themselves effectively in written and oral communication for the discipline of psychology.
5. Students will gain self-awareness of their behavior, motives, values, and strengths.
6. Students will exhibit self-regulation and professionalism.
7. Students will demonstrate the integration of their Christian faith with their knowledge of psychology.
8. Students will prepare for vocational training or graduate work in such fields as counseling, school counseling, clinical psychology, social work, criminal justice, pastoral counseling, and marriage and family counseling.
