

# BACHELOR OF SCIENCE IN BEHAVIORAL HEALTH

**A career in the behavioral health field places you at the nexus of health care and psychology.**

Evangel University's Adult Studies **Bachelor of Science in Behavioral Health** provides the foundational skills needed to address **emotional, relational, and cognitive issues**. Ideal program candidates have strengths in developing positive relationships and a desire to care for people who are hurting and at risk in meeting life demands. Graduates can assume positions in residential and outpatient treatment settings, as well as continue their education as graduate students in counseling, psychology, social work, or criminal justice.

## **Outcomes you can expect to achieve:**

- Knowledge of normal and abnormal **human development** and **theories of helping**
- Values and ethics to balance compassion and truth to assist clients with life challenges
- Skills in helping people experiencing acute crises find resolution

## **Prerequisites:**

- High school diploma or equivalent
- GPA of 2.0 or greater
- 76 credit hours of general education and electives

**Transfer friendly:** Maximize your prior college credits and work experience

**Next program start:** Year-round program with starts in January, May, and August

**Financial aid:** Program qualifies for federal financial aid. FAFSA required. [fafsa.ed.gov](https://fafsa.ed.gov)

**Program format:** Online

**Core credits:** 48, typically completed in two years

**Tuition:** \$285 per credit

## **CAREERS OPTIONS**
