

PLO's for Humanitarian Relief and Development

Intercultural
Compare diverse worldviews and explain how they influence intercultural studies and missions.
Non-Profit Enterprise
Explain theoretical frameworks and purposes of nonprofit social enterprise organizations.
Apply administrative and financial strategies for leading and supporting humanitarian projects.
Theology
Summarize and discuss the theology of compassion and defend the role of the church in compassionate actions.
Discuss the concept of biblical justice, specific to community relief and development.
Administrative Disaster Relief
Compare and contrast basic practices of crisis intervention, specific to relief and development strategies and procedures to support compassion services.
Formulate effective physical, psychological, and spiritual methods of helping the poor and suffering.
Design a plan for relief, development, and long-term sustainability to disaster scenarios in domestic and international settings, including strategies for collaboration with local, regional, international religious, relief, and government organizations.
