

## Forensic Science Minor

The Forensic Science minor is designed to introduce the student to various aspects of criminal cases using methods from the natural and behavioral sciences to accumulate evidence used in criminal investigations. It may be paired with a Criminal Justice major to broaden understanding of chemistry and biology in order to prepare for future advancement related to criminal investigations. Students must take a minimum of 18 credits listed in the minor that are not already required for their major.

### Program Requirements

Required Science Courses (13-15 credits)	Cr	<input checked="" type="checkbox"/>		Cr	<input checked="" type="checkbox"/>
COPH 215 Introduction of Photography	3		<b>Non-science majors:</b> CHEM 110 Chemistry for Health Sciences (or CHEM 111 General Chemistry I) <b>Science majors:</b> CJST 241 Introduction to Criminal Justice	3-4	
GSCI 220 Introduction to Forensic Science	4		<b>Non-science majors:</b> BIOL 124 Human Biology (or BIOL 211 Human Anatomy and Physiology I for Health Sciences or BIOL 311 Human Anatomy and Physiology I) <b>Science majors:</b> CJST 422 Criminal Investigation	3-4	
<b>Electives (3-5 credits)</b> Alternative courses may be approved by an advisor
