**CS OR CIS?**

**Computer Science (CS)** emphasizes the development of problem solving abilities and programming skills. Also covered are computer architecture, computer networking, operating systems, and database design. Heavy math emphasis.

**Computer Information Systems (CIS)** is the study of how to apply computer technology to business problems. Students learn programming skills and how technology improves business decision making, enabling the streamlining of operations and effective marketplace competition. Heavy business emphasis.

**WHY COMPUTERS @ EVANGEL?**

- Quality programs since 1984
- Hundreds of graduates
- Up-to-date course topics: C++, Java, PHP, MySQL, Cybersecurity, Mobile Programming, Gaming Theory
- Internship Opportunities
- Free software
- ACM Student Chapter

---

**DEGREES**

**Majors**

- **Department of Natural and Applied Science**
  - Computer Science
- **Business Department**
  - Computer Information Systems

**Minor Tracks**

- Computer Science
- Computer Informations Systems
- Business Management
- Applied Mathematics
- Communications

Certificates: Cybersecurity and Data Analytics
ALUMNI QUOTES

"The computer science training at Evangel is legendary! It doesn’t just cover theories and fundamentals. It also provides real-world opportunities to grow and develop your skills through internships, individual projects, and business training."
Rob Havlicek (CPSC 2006)
Programmer/Analyst, General Council of the Assemblies of God

"Evangel provides a good, well rounded education. After graduating, I felt more than adequately prepared for the systems analyst position I took with Northwestern Mutual."
Wendy Painter (CPSC 1995)
System Analyst, Northwestern Mutual

"...Evangel University prepared me for graduate school and my career as a software developer in a Christian environment I could not have found anywhere else. Not only was I academically equipped, but I graduated with four years of spiritual growth with professors who prayed for me, giving me full confidence to enter the field of technology with no limits to what might be accomplished."
Vanna Bashang (CPSC 2010)
Touchscreen Software Developer, ESPN

"...Evangel...provided the foundation that I have built my career on. The computer knowledge, along with the team and communication skills that I learned are essential in my every day job."
Tasheena Harris (CPSC 2009)
Business Systems Analyst, O’Reilly Auto Parts

"The computer science program at Evangel was key in my preparation for the ‘real world’. The range of courses prepared me for many of the aspects involved in starting and operating my own company with a fellow Evangel alumnus.”
Aaron Van Gorp (CPSC 2003)
Prodigy Pixel Creative Co-Owner
