

Pre-Medical Track (Chemistry Major)

The chemistry curriculum is designed to meet the needs of students who are preparing for professional work as chemists in private industry or civil service; training for professional work in health science disciplines; qualifying for graduate work in chemistry, biochemistry, or other physical science; preparing to teach; or those interested in a broad education in physical science. Students preparing for careers in research and development, chemical analyses (including food analyses, forensics, or materials development), or medicine and other allied health fields, generally attend a professional or graduate program after earning a bachelor's degree.

Suggested Course Sequencing: Recommend 15 – 18 semester hours.

Freshman year

| Semester 1 | Cr |

| THOE 320 Pentecost | 3 |
| Humanities Option | 3 |
| | 16 |

Total minimum to graduate 124

and must include at least 36 upper division credits

[a] Those not prepared for CHEM 111 should take CHEM 101 - Introduction to Chemistry.

[b] Those not prepared for Calculus should take MATH 129 - Precalculus Algebra.

[c] CHEM 331/332 and CHEM 431/432 to be offered in alternate years.

Graduation requires an overall GPA of at least 2.0, and 30 of the 40 final credits must be taken at Evangel.

The listing above only represents a suggested course sequencing as required to graduate with this major. Students are ultimately responsible for their own degree program. An academic advisor is assigned to the student for guidance in these matters, but the responsibility for meeting the requirements belongs to the student.
