

BEHAVIORAL HEALTH

Online

A career in the behavioral health field places you at the nexus of health care and psychology.

Evangel University's Adult Studies **Bachelor of Science in Behavioral Health** provides the foundational skills needed to address **emotional, relational, and cognitive issues**. Ideal program candidates have strengths in developing positive relationships and a desire to care for people who are hurting and at risk in meeting life demands, as well as continue their education as graduate students in counseling, psychology, social work, or criminal justice.

Outcomes you can expect to achieve:

- Knowledge of normal and abnormal **human development** and **theories of helping**.
- Values and ethics to balance **compassion and truth** to assist clients with life challenges.
- Skills in helping people experiencing acute crises find resolution.
- Develop a **Christian worldview** that promotes ethical patient care and behavioral health practices.
