Personal Objective

To leave people better than I found them; to build relationships and serve the needs of people; to help guide and encourage people; to model a lifestyle that integrates Biblical values with every area of life; to be dedicated to a lifetime of working for and with youth & college-age young adults.

Educational Objective

To educate the mind, encourage the heart, and inspire the soul of students so that they can reach their God-given potential to think critically with their head, love God with all their heart, and serve the world with their hands.

Theological Position

I grew up an Assemblies of God pastor's kid; saved at age four; baptized in water and in the Holy Spirit at age seven; called into ministry at age seventeen. I practice and preach all Assemblies of God doctrines. My testimony is one of God's keeping power as He has captivated my attention over what the world has to offer.

- ***Vision-Centered Leadership and Management-*** prepared me to provide leadership in whatever capacity I may serve people and how to lead and manage people with a vision of the end in mind
- ***Spiritual Formation-*** provided me with a thorough understanding of how to authentically grow in a relationship with Christ so that I can help students to experience authentic growth in their relationship with Christ
- ***Ministry Development Seminar-*** discovered how to integrate leadership, spirituality, and psychology together to be able to effectively minister to students
