

ALLIED HEALTH (ONLINE)

2026-27 Fact Sheet

In the Allied Health program you'll get the knowledge, understanding, and experience to help people get back to active lives.

Our experienced and professionally licensed faculty will prepare you for a career in occupational, physical therapy, chiropractic and athletic training. Our graduates learn how to diagnose orthopedic pathologies, apply physiological principles, and explore human anatomy. This degree also paves the way for graduate degrees in athletic training, occupational therapy and doctoral degrees in physical therapy and chiropractic medicine.

Outcomes you can expect to achieve:

- Communicate across a variety of populations and among healthcare professionals
- Critically analyze and synthesize data found in professional literature to determine evidence-based practice.
- Integrate and apply knowledge of content with chosen allied health profession
- Advance knowledge through research and creative activity
