

Health Care/Nursing

Evangel's Nursing program is a cooperative effort with Missouri State University through The Alliance for Healthcare Education. Students earn two bachelor's degrees: a B.S. in Health Care from Evangel and a B.S. in Nursing from Missouri State University. This is an all-inclusive, fully accredited, 4-year program.

EU students live on campus and participate in Evangel student life. Students complete nursing prerequisite courses and nearly all core curriculum requirements during the first four semesters. During the last four semesters, students take courses in nursing theory at the Alliance campus and complete clinical work through the Cox Health Systems network. The B.S. in Nursing requirements must be met before students receive the B.S. in Health Care. When they complete the program, students are eligible to take and pass the NCLEX exam which qualifies them for licensure as Registered Nurses.

Suggested Course Sequencing: 17-18 credits per semester; however, taking summer courses will reduce semester hours.

Total minimum to graduate **124**
and must include at least **36** upper division credits

Graduation from EU requires an overall GPA of at least 2.0. Missouri State University requires an overall GPA of at least 2.75. The listing above only represents a suggested course sequencing as required to graduate with this major. Students are ultimately responsible for their own degree program. An academic advisor is assigned to the student for guidance in these matters, but the responsibility for meeting the requirements belongs to the student.
