

# MASTER OF SCIENCE IN CLINICAL MENTAL HEALTH COUNSELING (ONLINE)

## Fact Sheet

**Counseling is a professional relationship that assists diverse individuals and groups to achieve mental health across the lifespan.**

Evangel University's **Master of Science in Clinical Mental Health Counseling** prepares students to become **professional counselors** equipped to integrate their Christian faith with theory and practice. The program provides the theoretical and practical training necessary to provide **evidence-based interventions and trauma-informed care**.

- Program graduates serve in community mental health facilities, private practices, medical facilities, substance abuse programs, correctional facilities, and more.
- Completion of coursework satisfies course requirements for licensure as a Licensed Professional Counselor (LPC) in Missouri.
- Coursework satisfies multiple states' licensure processes (see more information on program website)

### Prerequisites:

- Baccalaureate degree from a regionally accredited college or university
- 3.0 grade point average or GRE general score of 290 or above

**Program begins:** Spring or Summer semester

**Program format:** Each summer semester includes a residency along with two courses in a 7 week block. Fall/Spring semesters are 15 weeks long. Students will take an average of 6-9 credit hours per semester. Courses include synchronous (live) class time along with asynchronous instruction.

**Credits:** 60 credits designed to be completed in nine consecutive semesters

**Tuition per credit:** \$420

### ADMISSION REQUIREMENTS

Three References, resume, APA writing sample, statement of purpose, interview, and background check (required for practicums and internships).
