

College of Arts and Sciences

Business Department

Bachelor of Business Administration in Healthcare Management

The following Program Learning Outcomes have been established by Evangel faculty to define the areas of knowledge and skills that students graduating from this major degree program should have developed. At the conclusion of this program, students will be able to:

1. **Problem Solving**
Demonstrate problem solving skills in the changing healthcare environment.
2. **Leadership**
Analyze management and leadership situations related to healthcare.
3. **Processes**
Evaluate the effectiveness of organizational processes and the impact on the various internal and external healthcare stakeholders.
4. **Operations**
Manage operations of various types of healthcare organizations.
